EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bella Fishman and Weston Anderson on May ²⁶~~28~~, 2004. Accordingly, claim 8 is amended as follows:

A method of determining shim coil setting when number of probe cells is greater than number of shim coils, comprising the steps of: applying currents to said shim coils; measuring resonant frequencies from said probe cells, and optimizing the [finding] currents of said shim coils by [required to any desired set of resonant frequencies of said probe cells] using a least square of errors of frequencies from a desired set of resonant frequencies.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

Claims 1-7 are allowed, as the prior art of record does not teach or suggest a method of optimizing effects of a shim on adjusting a magnetic field applied to a plurality of cells of a probe, wherein resonant frequency of each cell of said probe is substantially the same and so that the plurality of cells of said probe are subjected to a uniform magnetic field, in combination with the remaining limitations of the claims.

Claim 8 is allowed, as the prior art of record does not teach or suggest a method of determining shim coil setting when the number of probe cells is greater than the number of shim coils, wherein measuring resonant frequencies from said probe cells, and optimizing the currents of said shim coils by using a least square of errors of frequencies from a desired set of resonant frequencies, in combination with the remaining limitations of the claim.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brij B Shrivastav whose telephone number is 703-305-0649. The examiner can normally be reached on 7 AM to 4 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Diego F. F. Gutierrez can be reached on 703-308-3875. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
